

<b>Provisional Project Title</b>	
----------------------------------	--

<b>Q1a - Give an outline of the setting, literature review area, presenting problem and target. (Max words 200)</b>
---

<b>Workbook References</b>	
----------------------------	--

<b>Student Answer</b>	<b>My word count is</b>	
-----------------------	-------------------------	--

**Problem Setting –**

**Literature Review Area -**

**Presenting Problem -**

**Target -**

<b>Assessor Feedback and Assessment (✓)</b>	<b>Good</b>		<b>Fair</b>		<b>Poor</b>	
---	-------------	--	-------------	--	-------------	--

<b>Q1b Student revised answer after careful consideration of the feedback</b>	<b>My word count is</b>	
---	-------------------------	--

**Problem Setting –**

**Literature Review Area -**

**Presenting Problem -**

**Target -**

<b>Assessor Feedback</b>
--------------------------

**Q2a** – Discuss the most probable cause of the problem and hence name a project outcome that, when used by appropriate situation actors, may bring about change and resolve the problem situation by showing that it use leads to the Strategic deployment of Business IT assets (Max 200 words)

<b>Workbook References</b>	
----------------------------	--

<b>Student Answer</b>	<b>My word count is</b>	
-----------------------	-------------------------	--

**Probable Problem Causes -**

**Proposed Outcome -**

**Actors and Use Description –**

**Change and Strategic Business IT Deployment implications -**

<b>Assessor Feedback and Assessment (✓)</b>	Good		Fair		Poor	
---	------	--	------	--	------	--

<b>Q2b Student revised answer after careful consideration of the feedback</b>	<b>My word count is</b>

<b>Q4a – What is your single project aim and its associated project objectives (Max 200 words)</b>								
<b>Workbook References</b>								
<b>Student Answer</b>				<b>My word count is</b>				
<p><b>Aim -</b></p> <p><b>Objectives -</b></p>								
<b>Assessor Feedback and Assessment (✓)</b>			<b>Good</b>		<b>Fair</b>		<b>Poor</b>	
<b>Q4b Student revised answer after careful consideration of the feedback</b>						<b>My word count is</b>		
<p><b>Aim -</b></p> <p><b>Objectives -</b></p>								
<b>Assessor Feedback</b>								

<b>Q5a – What resources (other than trivial ones) will you need to complete this project idea (Max 200 words)</b>					
<b>Workbook References</b>					
<b>Student Answer</b>				<b>My word count is</b>	
<p><b>Note</b> – this answer must be considered with care as we will assess whether what you have asked for is sufficient. Do not just write down everything you can think of mindlessly, but carefully think through you aim and objectives and what is needed to support them and this might cover: documentary needs, tools, time, facilities, training, access permissions, security and so on. We will consider each item in relation to what you have said will be done and so the list must be fully contextualised to your research and if we feel it has been constructed with little or no thought to what you have planned you will lose marks. <b>(Delete this note before submission)</b></p>					
<b>Assessor Feedback and Assessment (✓)</b>			Good		Fair
					Poor
<b>Q5b Student revised answer after careful consideration of the feedback</b>				<b>My word count is</b>	
<b>Assessor Feedback</b>					

<b>Q6a – How will you evaluate your project outcome (before it is used) and research practice (Max 200 words)</b>					
<b>Workbook References</b>					
<b>Student Answer</b>				<b>My word count is</b>	
Evaluation Plan for testing my Outcome -					
Evaluation Plan for reflecting on Project Practice -					
<b>Assessor Feedback and Assessment (✓)</b>			Good		Fair
					poor
<b>Q6b Student revised answer after careful consideration of the feedback</b>				<b>My word count is</b>	
Evaluation Plan for testing my Outcome -					
Evaluation Plan for reflecting on Project Practice -					
<b>Assessor Feedback</b>					

**Optional Student Additional Comments on the proposal (Q1a to Q6a) (Max words)**

**Optional Additional Comments from Assessor**

**Assessors comment on this student's ability to communicate in written English**

**Assessor name**

**Date**

**Provisional Supervisor**

**Q9:** Develop a plan for your Literature Review, the plan will normally make clear: the literature review area, an originality theme, a content map of about 6-10 headings, a suggested review conclusion and finally an indicative list of 5-10 primary sources. (Max 300 words)

**Workbook References**

**Student Answer**

**My word count is**

**Literature Review Library Search Areas –**

**Review Theme –**

**Content Map –**

**Possible Review Conclusion -**

**Indicative Reading List**

**Note –** this section is all about preparation from the available literature, therefore there should be nothing here that refers to your problem setting or what you will do. If what we read ignores this note then it is likely that a fail will be recorded (**delete the note before submission**)

**Assessor Feedback**

**Q10:** Write a simple contextualised project plan. It will be sufficient to develop a plain list of no more than 20 clearly staged activities and approximate activity timings in weeks. The plan must be at least 18 weeks but no longer than 52 weeks in duration. (max 200 words)

<b>Workbook References</b>	
--------------------------------	--

<b>Student Answer</b>	<b>My word count is</b>	
-----------------------	-----------------------------	--

**Note** – the plan must be contextualised. That is it should be constructed so that it is obvious you have considered your aim and objectives and worked out a plan that reflects those although there will normally be many more tasks than might be written in your objectives. In simple terms if we read this plan and it gives us no hints at all as to what it refers to you will lose a lot of marks (**delete this note before submission**)
